

Positive Behavioral Interventions & Support

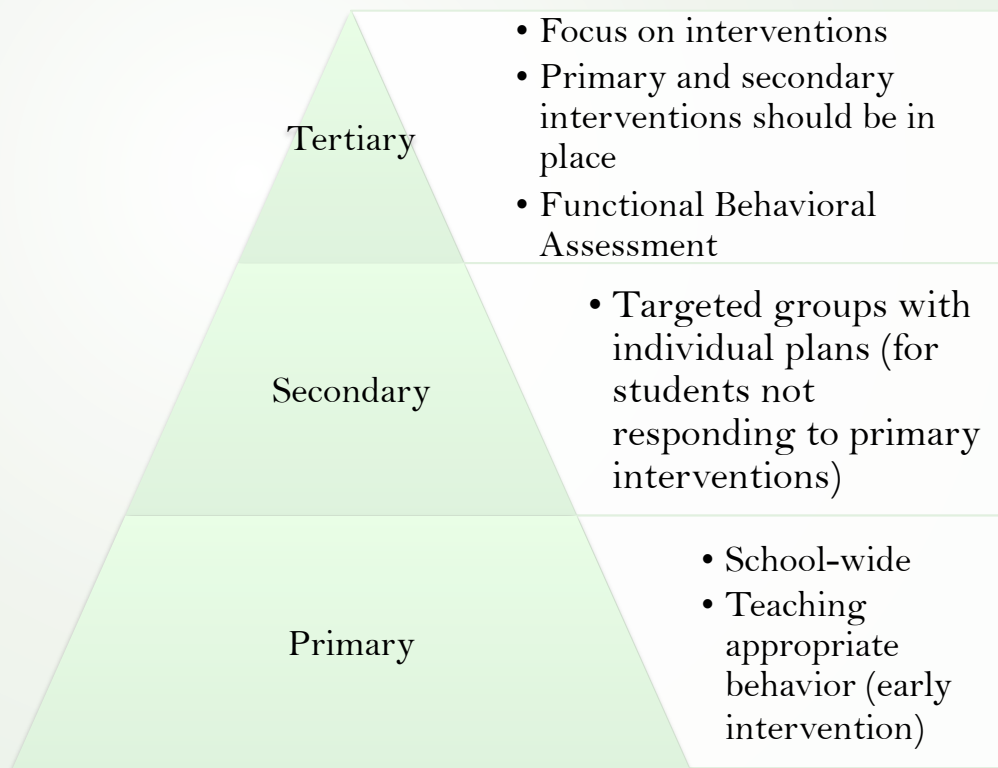

PBIS

WHAT IS IT AND HOW IS IT USED?

What are key ideas of PBIS?

- All children can demonstrate appropriate behavior
- Opportunities for academic engagement
- Consistent use of positive teaching and reinforcement
- Assessments can and should be used
 - Early intervention of behaviors is essential (if possible)
- Appropriate behavior can be: taught, modeled, practiced and observed
 - Should be engaging, responsive, preventative, and productive

How is it used in schools?

- PBIS is school-wide; it involves the entire school to enforce these behaviors
 - Responses to behaviors are more engaging
 - Particularly effective with students with disabilities
- Children gain recognition for demonstrating positive behaviors
